5. NEW ENTRANT CONFIDENTIAL FINANCIAL DISCLOSURE REPORT: All commanders and supervisors are required by DOD 5500.7-R Joint Ethics Regulation (JER) to review the job duties of each employee (military or civilian) newly assigned or detailed to a **"covered position"** and promptly report the name of the employee to the Ethics Counselor, Office of the Staff Judge Advocate, AMEDDC&S & FSH, ATTN: MCCS-BJA-AL. That employee is required to file a New Entrant Confidential Financial Disclosure Report (OGE Form 450) within thirty days of assuming his or her position. An employee occupies a **"covered position"** when the official responsibilities of the employee require them to participate personally and substantially through decision or exercise of significant judgment in taking official action for contracting or procurement; administering or monitoring grants, subsidies, licenses or other Federally conferred financial or operational benefits; regulating or auditing any non-federal entity; or other activities in which the final decision or action may have a direct and substantial economic impact on the interests of any non-Federal entity. An employee is also required to file an OGE Form 450 when the commander/supervisor determines that the duties and responsibilities of the position require the employee to file such a report to avoid an actual or apparent conflict of interests and to carry out the purpose of any statute, Executive Order, or regulation applicable to or administered by that reporting individual. On notification, the Ethics Counselor will contact the employee and assist him/her in obtaining, completing, and filing the OGE 450. The POC is the Ethics Counselor at 1-2373/0485. 7. INFORMATION SYSTEMS SECURITY MONITORING. All Department of Defense (DOD) personnel (military, civilian and contractors) must be given notification that use of official DOD telecommunications systems constitutes consent to information systems security monitoring. DOD telecommunications systems are provided for official Government communications. When these systems are used by Department of the Army components, they are subject to information systems security monitoring in accordance with Army Regulation 380-53. Guidelines specify that monitoring will be conducted so as to minimize the monitoring of telecommunications not related to security objectives. This is a security assessment technique that provides information not available through other sources and is essential for evaluating security within the U.S. Army. Monitoring will be performed in a manner that also protects, to the greatest degree possible, the privacy and civil liberties of individuals whose telecommunications are subject to monitoring. The following Telephone or Communications Directory Notice is required to be published at least quarterly in the command bulletin. (Official U.S. Army telephone directories will display this notice on the front cover or prominently within the general information section.)

Attention!

Do not process, store, or transmit classified information on nonsecure telecommunications systems. Official DOD telecommunications systems — including telephones, facsimile machines, computer networks, and modems — are subject to monitoring for telecommunications security purposes at all times. Use of official DOD telecommunications systems constitutes consent to information systems security monitoring.

Point of contact is the Garrison Command Security Manager, at 221-1906 / 9500.
